DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-195 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Taken as a whole, the claims recite an undue multiplicity of claims by virtue of the unreasonable number of claims presented would tend to obfuscate, confuse, and becloud the claimed invention. Because the examiner believes that in his judgment that twenty-five (25) claims are sufficient to properly define Applicant's invention, Applicant's are required to select certain claims, not to exceed twenty-five for examination on the merits, See M.P.E.P. 2173.05(n). To be complete the non-selected claims must be cancelled or the Applicant must present appropriate arguments as to why the above rejection is in error. Note most patents have less than twenty (20) claims.

It is further noted that it would appear that a multiplicity of inventions also appear to be involved and the Applicant's are requested to group their selection accordingly to read on a single invention. The Applicant should group the claims according to what he believes to be distinct inventions which may be restricted in a subsequent action.

Applicant's are being afforded the courtesy of a written response due to the complexity of the case.

3. Applicant's Information Disclosure Statement (IDS) has been cursorily reviewed. Applicant is requested to clarify the references as to the relevancy of each.
4. A further pertinent reference of interest is noted on the attached PTO-892.
